# 360 Video

360 is the next generation in videography and still photo capture. It uses specialised cameras featuring dual back-to back lens' which, as the name suggests, captures an image in 360 degrees around the camera.

<b>Recommended Ages</b>	10+ years
<b>Product Cost</b>	\$250+
<b>Where to Purchase</b>	Most camera stores such as <a href="#">Camera House</a> or <a href="#">Ted's Cameras</a>

## Tips

### Samsung Gear 360

This is an inexpensive 360 camera, however is no longer recommended by State Library as support for the product by Samsung is almost non-existent. The software for the camera has not been updated and users have reported issues with the latest versions of Android, iOS and Windows.

You can find the Windows and Mac software on [Samsungs support site](#)
