

Pro-Bot

SLQ Wiki Fabrication Lab 2024/04/27 12:21

Pro-Bot

Pro-Bot is the grown up version of the [Bee-Bot](#) and can be programmed using robotic controls on the car or through Logo programming. This race car designed bot allows students to enter commands via a set of arrow and number keys mounted on the back. Plan a route for the Pro-Bot and press the corresponding keypad controls then press GO. The Pro-Bot also allows repeat loops and has bumper and light sensors to take programming to the next level.
